Objective

Passionate and detail-oriented Front-End Web Developer with a Computer Science background. Seeking to apply my skills in building responsive and user-friendly web applications using modern technologies like HTML, CSS, JavaScript, and Angular framework.

Education

Bachelor of Science, Computer Science (2021-2025)

Alexandria university, Egypt

Field Experience

Web Design

at National Telecommunication Institute (NTI)

May 2025 – present

Learned HTML, CSS, and JavaScript through many projects

Frontend Development

at Creativa Hub Alexandria

August 2024 – October 2024

Learned how to implement responsive web pages using JavaScript, HTML, CSS

Projects

Game Reviews Web App

Built a responsive single-page app using HTML, Bootstrap, and JavaScript to display game data from RapidAPI. Features include paginated game cards, dynamic detail view, and smooth UI transitions.

GitHub: <https://github.com/SarahIbrahim73/game-reviews.git>

Weather Forecast Web App

A responsive front-end web application that displays real-time weather data for any city using the WeatherAPI. The project features dynamic search, clean UI, and integration with third-party APIs to fetch and display current weather, temperature, wind speed, humidity, and forecast data. Built using HTML, CSS, JavaScript.

Recipe Search Web App

I developed an interactive web application that allows users to search for cooking recipes using the Forkify API. The app displays recipe results with pagination and provides detailed views of each recipe, including ingredients and step-by-step instructions. Users can also bookmark their favorite recipes for quick access. The project focuses on a clean and responsive user interface, built using modern JavaScript (ES6+), HTML, and CSS, with efficient API integration for a smooth user experience.

Skills

Technical Skills: Vs code, MS office

Object-Oriented programming, Problem-Solving abilities, Data Structure, Databases, HTML / CSS proficiency, Agile software development, version control systems: git, github.

Programming Languages: JavaScript

Soft Skills:

Effective communications, Team collaboration, Decision making, Adaptability and flexibility.

Language: Perfect command of Arabic, and English
